REHEATING INSTRUCTIONS

MICROWAVE:

Place product bag in microwave making sure the flat portion of the bag is facing down. Heat product for 4 minutes. Flip the bag ½ turn, puncture 4 small holes in the bag. Heat for an additional 12 minutes. Use thermometer to measure product temperature. Product should be at least 165F. Carefully pull bag out of microwave. Cautiously, be aware of the extremely hot steam escaping bag, cut open bag and place product on the designated deli case pan.

STOVE TOP – HOT WATER:

Place bag/s in pot with water (use enough water to cover bags). Heat water to about 180°F. While maintaining water temperature, let product sit in water until it reaches desired temperature. Cautiously cut open bag and place product into designated aluminum pan. Use thermometer to measure the temperature of the product. The product should be about 165F or higher.

Heating Times:

Thawed Product: 30-45 minutes

Frozen Product: 60-90 minutes

GENERAL REQUIREMENTS:

As a producer of products regulated by the United States Food and Drug Administration, Del Real Foods certifies that all manufacturing, processing, packing of human food is performed in strict adherence to FDA guidelines and regulations, and SQF Ed. 9 Code as set forth in the Current Good Manufacturing Practices regulations.
