Sew:3 Blue thread.

6.0 Packaging and Marking

Packaging:

- Each broom comes protected with a poly sleeve.
- 6 brooms in a burlap bag.
- 2 burlap bags per dozen
- 42 dozens per pallet.

Marking:

Use UPC: 071485088067
Each broom with an adhesive label with ACS print.

7.0 Directions for Use

- Chose a broom.

Rougher floors may need natural fiber brooms to be as effective.

- Find a Starting Place.

When sweeping a room, there are a couple of different methods. Some people like to walk the perimeter of a room, sweeping from the edges into a pile in the center. Others like to begin at one end of the room and move to the other pulling the dirt pile along with them, or eliminating the pile in sections. Choose a method and starting point that works for you.

5.0 Requirements (Continued)

Typical Properties:		
Property	Value	Test Method (ASTM)
Diameter Handle	1-1/8"	NA
A.O.L.	57-1/2"	NA

7.0 Directions for Use (Continued)

- Start Sweeping.

Sweeping isn't a difficult motion to master, but try to keep continuous contact with the floor, without pressing the broom strands down into the floor. Begin on a section of floor away from your body and gently drag the broom towards your body. You can use short quick motions or long sweeping motions. Choose whichever best fits your sweeping style.

-Sweep Up Your Dirt Pile.

Sweep dirt into a pile. Sweep the dirt pile into a dust pan and then deposit it in the trash. Be careful not to dump the dirt too quickly, causing dust and dirt to billow back into your face, or onto your clean floor.

-Put Away Supplies.

Put away all of your supplies and be sure to clean your broom if needed. Sit the broom upside down for storage.

8.0 Quick Facts

- Wooden handles are comfortable to touch, attenuate vibrations, resistant and low cost.
- Handle All Wood Design, RENEWABLE RESOURCE.
- Ergonomic design handle.
- The Natural fiber Corn Brooms will last longer and sweep better as the fibers flex to trap the dust and dirt.

Note: Due to the properties of the material and variable conditions of use, there may be variations in the specifications. Please contact ACS with any questions about the product.
