

Our trademarked **micro now**[®] **deli now**[®] **nature now**[®] **take-out now**[®] and **valu now**[®] are manufactured and distributed by Nowpak, Inc. throughout North America. With offices in South San Francisco, CA, our company mission is to provide our customers with the latest and most innovative food packaging in the world. We strive to be a low cost producer but still maintain our high quality reputation. Our competitive pricing, combined with our excellent service, have made us a favorite to many in the food service industry.

MICROWAVE SAFE, STACKABLE, REUSABLE, RECYCLABLE, COMBO PACKED FOR CONVENIENCE

Our 2-piece, heavy gauge, MicroNow is reusable and is offered in rectangular, square and round shapes with black or white bases and translucent lids. Available in one, two, and three compartment configurations. MicroNow containers are a great option for prepared foods or food to-go. They easily go from refrigeration to a microwave to a dishwasher!

MICROWAVE SAFE, STACKABLE, REUSABLE, RECYCLABLE, COMBO PACKED FOR CONVENIENCE

Our heavy gauge, DeliNow, containers are reusable and designed to hold everything from hot soup to rice and beans to nuts. DeliNow is virtually leak-proof and withstands high heat from microwaving. They stack great and the clear design allows for easy product identification. Available in combo packs with matching lids or bulk pack.

COMPOSTABLE, CUT RESISTANT, FREEZER SAFE, MICROWAVE SAFE

NatureNow: Our eco-friendly, heavy-duty, compostable NatureNow product line is made from bagasse sugarcane and bamboo, using only sustainable raw materials.

NatureNow Premium: We've added a corn based (still compostable) lamination (PLA) to the bottom of our bagasse containers. Great for very hot and saucy foods! NatureNow Premium adds that extra and secure moisture barrier to keep the container firm. Greatly improves heat and moisture tolerance. Simply the best performing compostable to-go container on the market!

PATENTED, STACKABLE, MICROWAVE SAFE, 4-SNAP RIM CLOSURE

Our eco-friendly and patented, Take-Out Now, hinged to-go containers are made from polypropylene and a natural mineral powder. The addition of this powder greatly reduces the amount of plastic polymer in the finished product and yet increases it's overall strength and rigidity. This hybrid material is microwave safe and can withstand high heat! An excellent 4-snap closure system. Never a worry about the lid popping open! It's simply the best to-go container on the market today!

MICROWAVE SAFE, STACKABLE, REUSABLE, DUAL FRONT SNAP LOCKS, HOT FOOD READY

New to our line of eco-friendly to-go containers is ValuNow. An economy version of our widely successful Take-Out Now. Great for hot food, ValuNow comes in 6 sizes. Looking for a multi-purpose, eco-friendly, lower cost food to-go container? Try ValuNow!
