Product Data Sheet

TRU-SOFT® EVAPORATED WATER SOFTENER SALT PELLETS

Typical Chemical Analysis

Constituent	Weight Percent
Sodium Chloride	99.9
Calcium Sulfate	0.001
Sodium Sulfate	0.04
Insolubles	0.00
Moisture	0.04

Typical Screen Analysis

Not applicable to a compressed product.

Product

Tru-Soft® Evaporated Water Softener Salt Pellets are produced from our high purity salt. The product is a minimum 99.9% NaCl, contains virtually no insolubles, and produces clear brine. The product meets AWWA standards for water softener grade salt. The product is NSF-Registered No: 120920 for the treatment of entire potable water systems, category G-1.

Process

The salt is made in the evaporating system from saturated brine. The salt is dried, compacted, and screened prior to packaging. All lots are tested for pellet integrity to ensure uniform dissolution.

Additives

None

Trace Elements

None

Bulk Density

60 - 64 lbs. per cubic foot

Package

The product is packaged in polyethylene film bags with an E-Z entry system. The 40 pound bag has a soft handle.
