

# QUICK CHANGE – M8901

## Handle

### TECHNICAL DATA SHEET

#### 1.0 Description

Janitor Clamp Wood Mop Handle. Heavy-duty metal quick change.

Quick release cross bar for quick changes and a secure hold. Designed using heavy-duty wing nut screw clamp.

#### 2.0 Intended Use

Use for hold the mop. Great mop handle, easy to change heads as needed. This handle is recommended for narrow band mop heads.

#### 3.0 Construction

Clear natural finish wood handle, silver metal clamp.

Handle is made of solid **Hardwood**, clamp made of heavy plated metal to prevent rust and corrosion.

#### 4.0 Packaging and Marking

##### Packaging:

- 12 handles in a clear polybag.

##### Marking: Use ACS Number: **M8901**

Each handle with an adhesive label with ACS print.

ACS brand or private label is available for this product.

#### 5.0 Directions for Use

- Wring the moisture out the old mop head. Turn the mop upside down. Rest the end of the handle on the floor.

- Access the release bracket. Divide the strands of a string mop head in half along the seam to get to the wing nut.

- Loosen the fastener holding the old mop head bracket together. Take note of how the mop head is positioned in the bracket. Spread the bracket until you can remove the mop head.

- Place the new mop head, divide string mop head strands in half along the seam and align the seam with the length of the bracket.

- Tighten the wing nut for secures the new mop head. Flip the mop so the new head is on the ground. Soak the new mop head thoroughly before its first use

#### 6.0 Properties

Property	Value
