Zinc Gluconate, Thiamine Hydrochloride (Vitamin B1), Niacin, Pyridoxine Hydrochloride (Vitamin B6), Riboflavin (Vitamin B2), Vitamin B12

Allergens

Contains:

Handling Suggestions

Not applicable - for commercial use only

Serving Suggestions

1. Impossible Burger shrinks 8% in volume, compared to 25% with beef. Therefore, patties, meatballs, meat loaves should be made to the desired finished size.
2. It doesn't need to rest after cooking; it can be served immediately without color change or juices that run.
3. You can pre-sear and reheat as desired, however; reheat the meat below temperatures of 375F to prevent overcooking the outside.
4. You may see some pink around the edges for rare and medium cook temps. You can use the Impossible Burger, as well, a burger! It performs great as sautéed or baked ground beef. You can also use it in fillings or add to soups and sauces.

Prep & Cooking Suggestions

Pan Fry - 1. The colder the Impossible Burger is, the easier it is to handle as it allows the coconut oil to stay firm while you cook it. 2. It is best to cook the Impossible Burger between 350-375F. Otherwise, you can overcook it. 3. It performs best when slightly browned. It will cook to temp - rare, medium, well, well done. 4. You may see some pink around the edges for rare and medium cook temps. You can use the Impossible Burger, as well, a burger! It performs great as sautéed or baked ground beef. You can also use it in fillings or add to soups and sauces.
