

MED LOOPED END GREEN WB –M8710

Mop

TECHNICAL DATA SHEET

1.0 Description

16 oz. Looped End Mop Heads, Cotton Blend Loop Green Medium. Not recommended for laundering

2.0 Intended Use

These mops are durable and well suited for most general purpose applications. Tail band provides wide surface coverage without gaps or tangles.

3.0 Construction

Green cotton/ synthetic blend yarn / Green wide band mesh. Made of premium quality cotton/synthetic blend yarn for high absorbency and longer wear, wide band is 4-1/2" mesh.

4.0 Packaging and Marking

Packaging:

Each mop is individually packaged in a clear poly bag, 12 mops per box

Marking: Use ACS Number: **M8710**

Sewn-in label for easy identification and re-order

Each box with 1 adhesive label with ACS print.

Labeling is to clearly identify product, size, and quantity.

ACS brand or private label is available for this product.

5.0 Directions for Use

- Chose a Mop.

Choose a mop based on your floor type.

This mop is recommended for ceramics, wood & marble floors. Not to use in rough floors.

- Prepare the Floor.

In order to prevent your floor from becoming a sticky, muddy mess, sweep or vacuum the floor thoroughly before ever touching the mop to the floor.

- Fill Bucket or Sink.

Whichever you choose, make sure you use water and a mopping solution appropriate for your floor type. Check the directions to be sure.

- Dip and Wring Out.

Dip your mop in the bucket and wring it out with a wringer or by hand. Too much water dripping from the mop can damage a floor or leave the floor with an Extended drying time.

- Mop.

Mop from the top of the room to the bottom, so that you are always standing on unmopped floor. This will prevent tracking. When you encounter tough or sticky

sticky spots, rub quickly and press down with your mop onto the floor to scrub at the spot.

-Rinse and Wring.

Rinse the mop frequently in another side of the sink, or a different bucket. Dip in the mop bucket, wring and begin mopping again. When the mopping water becomes dirty, it needs to be changed. Otherwise you'll just be painting dirty water back onto your floor, and making your own work more difficult.

-Put Away Supplies.

When you've mopped every section, thoroughly rinse your mop and mop bucket and allow drying completely. Let your floor dry completely before walking on it.

6.0 Properties

Property	Value
Weight	16 oz (+0 / -15%)
Mesh Width	4-1/2" (+/- 1/8")
Length of cut	35-7/16" (+/- 1/8")
Head Width	5 1/2" (+/- 1/2")

7.0 Quick Facts

- Special floor types may need modified cleaning care. Know what type of floor you have, and follow the manufacturer's directions; choose cleansers that are safe for your floor type.

- The loop-end mop performs more efficiently by resisting tangles without lining and fraying. These mops stand up to heavy use. Sewn in tail-band provides wide surface coverage without gaps.

8.0 Environmental commitment

- ACS is certified in ISO 9001:2015

- Plant is operating under PROFEPA environmental regulations.
